TEMA: ZOO-OPIS

Pozdravljeni učenci,

sedaj že dobro znamo:

- poimenovati živali, jih razvrstiti v različne skupine (vodne živali, divje živali, gozdne živali, sesalci, ...)
- opisati žival,
- znamo izraziti prostorska razmerja (kje je kakšna stvar; na, pod, poleg, med, ...)
- poznamo že izraze, s katerimi opisujemo prostore, stavbe, kraje (there is/are)

Pa poskusimo opisati ŽIVALSKI VRT. Oglejte si vašo sliko in povejte, kje se živali nahajajo. Dobro je, da dodate npr: kaj počnejo živali, kakšne so, kaj jejo, ...

UPORABIMO:

There is ... (Tam je...)

There are ... (Tam so...)

You can see... (Lahko vidiš...)

Turn right and you will see... (Obrni se na desno in videl boš...)

Turn left and you will see... (Obrni se na levo in videl boš...)

There is ...in the middle of the zoo.

Go straight on and you can see... (Pojdi naravnost in videl boš...)

Oglejmo si PRIMER:

This is my ZOO. It's quite big and modern. You can see mammals, birds, reptiles, water animals, jungle animals... /You can see a polar area, desert area, a zoo farm, ...in my zoo.(Napišite, kakšen je vaš živalski vrt in katere živali lahko vidite tam oz. katera področja imate v živalskem vrtu.)

Nato poveste, kje se kakšno območje/kletka nahaja. Uporabite predloge: behind, next to, in front of, behind, ...Povejte, katere živali tam vidite, kakšne so, kaj počnejo ali pa katere dele telesa imajo.

You can see an aquarium in the middle of the zoo. There are fish, sharks, dolphins and whales in the aquarium. They all have fins. They are swimming. When you enter my zoo you can see the aviary on the left. There you can see eagles and owls. There are wild cats next to the aviary. They are in a large cage. If you turn right you will come to the polar area. There are polar bears. They are wild and dangerous. Behind the polar area there is a cage with monkeys. You can see apes, orangutans and a gorilla. They are strong and funny. They are playing, climbing and jumping from tree to tree...

TO JE SEVEDA LE PRIMER, KI NAJ VAM BO V POMOČ. DODAJTE PA SVOJE IDEJE.

Če imate težave z opisom, tvorite enostavne povedi.

PRIMER:

There is a cage with a lion next to the elephant. The lion is dangerous.

There are monkeys behind the polar area. Monkeys are playing.

You can see a gorilla in front of the aquarium. The gorilla is strong and dangerous.
