Opomba:

A) Poševnica (/) označuje dodatno možnost.

Na primer:

He is washing the car/his car pomeni, da sta pravilni obe povedi, in sicer *He is washing the car* in *He is washing his car*.

Kjer je bilo smiselno, smo dodali več možnih rešitev, vendar to ne pomeni, da so pravilni samo dani odgovori. Marsikje nismo izčrpali vseh možnosti, zato se naj učenci o svojih rešitvah posvetujejo z učiteljem.

Pri vajah, ki zahtevajo prosto dopolnjevanje, smo lahko dodali samo **predloge rešitev**, ki se lahko močno razlikujejo od učenčevih. Pri tistih vajah, kjer učenci izražajo svoje lastne izkušnje, rešitev seveda nismo mogli navesti.

B) Oklepaj () označuje tiste besede, ki jih lahko izpustimo.

Na primer:

She is riding (a horse) pomeni, da je pravilno *She is riding* in *She is riding a horse*.

*In the southern counties of England there is a familiar proverb: *A Cherry year a merry year; A plum year a dumb year.*

Explanation 1: It means that 'cherries are never plentiful' except when their blossoms have a genial spring and summer, and that an abundance of plums carries an increase in the death rate.'

Explanation 2: In the Westminster Review for January, 1881, may be found a more plausible, explanation. The word 'merry' according to this authority, has nothing whatever to do with our adjective so spelt, but is connected with the French *merise*, and is a common word throughout the south-west of England, for the wild cherry (*Prunus Avium*). There are various kinds of 'merries', known as red, black and white, in different parts of England. The word 'dumb' has also nothing to do with the adjective so spelt, but is a corruption of 'damson' (*Prunus communis*). The meaning of the rhyme now becomes apparent. It simply says that a good year for cherries is also a good year for 'merries,' and that a good year for plums, (always spelt 'plumb' by the rustic of the west of England, and so making a purer rhyme,) is also a good year for damsons; that, in short, the year which is favorable to cultivated is also favorable to wild fruit'.

WRITING (str. 40)**4** (predlog rešitve)

One day little Mr Jones was going past a sports shop. When he saw the sporting goods in the window, he suddenly stopped. He looked at them, then went into the shop and asked the salesman to show him the boomerang in the window. Mr Jones had no idea how to use it. The salesman was very kind, so he suggested stepping outside for a demonstration. He threw the boomerang but – oh no! – the boomerang flew right back, hit the shop window and smashed it to pieces.

Midge's mum wanted some eggs. Midge went to the grocer's. The shop assistant gave him some eggs. Midge put the eggs in a bag. On his way home Midge saw his friends. "Come and play," they said. Midge put the bag down. They played football. Midge played in goal. He fell on the eggs. "Oh no!" said Midge. When he got home his mum looked at the eggs. She was cross. Midge went to the grocer's again. The shop assistant gave him some eggs. Midge put the eggs in a bag. Then he saw a friend. The friend had a go-kart. Midge wanted a go. He put the bag down, next to some dustbin and refuse sacks. He went on the go-kart. His friend gave him a push. A dust-cart arrived. The binman put the bag with the eggs in the dust-cart. "Oh, no!" said Midge. When he got home, his mum was very cross. Now Midge's mum went to the grocer's herself. The shop assistant gave her some eggs. She put the eggs in a bag. On her way home she met a friend. She put the basket down. They chatted away. Midge's baby brother was in a pram. He got bored, and took the box of eggs from the basket. He started to play with the eggs. Oh no! He broke them.

WRITING (str. 88)**7** (predlog rešitve)

Little Mr Jones and Mr Henderson were both cycling along, thinking about the road ahead of them. Neither was paying much attention, and that's why they crashed into each other. Mr Henderson was very angry at Mr Jones, because his bicycle was a mess. The front wheel was broken beyond repair. But Mr Jones had an idea! He removed the broken front wheel, and attached Mr Henderson's bicycle to his own. They happily rode away on a bicycle built for two.

In the first picture two workmen were cleaning a second-storey window of a large building. They were standing in a cradle. One of the ropes was frayed and suddenly broke. One of the workmen fell to the ground and got injured. The workman in the cradle shouted for help. Two other workmen came to help the workman in the cradle. One of them was lowered on a rope from the third storey. He helped the workman in the cradle to climb onto the window-ledge. Someone called an ambulance. The ambulance arrived. The ambulance men put the injured workman on a stretcher and covered him with a blanket. They took him to hospital where he was treated for shock.

WRITING (str. 139)**4a** (predlog rešitve)

ocean → wide – fish – dolphins – whales – ships – deep

An ocean is deep and wide. It's the home of many fishes and mammals, like dolphins and whales. A lot of ships transport different goods all over the world.

5 (predlog rešitve)

One day Mr Granger was walking on the beach when he saw a bottle in the sea. He took the bottle and there was a message in it. He opened the bottle, took the message out and read it. Then he took the bottle and the message and went back to town. He looked for a bottle bank and threw the bottle into the bottle bank. Why? The message in the bottle read: "Whoever finds this message please recycle this bottle and take it to a bottle bank. Thank you. John Green – a nature lover"

8 (predlog rešitve)

Carol Allen and her brothers were fishing in the River Ash. They were fishing for hours but they didn't catch anything. They got bored but then Carol finally caught a fish. Then she cooked it and ate it. Her brothers didn't want any because they don't like fish very much. So Carol ate it all. Some time later Carol didn't feel well. She had an awful stomach-ache. She told her parents. They sent her to bed. Her mother phoned the doctor. Half an hour later the doctor came and examined her. Carol was seriously ill. He said it was food poisoning. He phoned for an ambulance that took Carol to hospital. Then Carol's brothers remembered the fish. The next day Carol's family came to visit her in the hospital. She got better quickly. They told her that she was in the newspaper that day. There is a paper mill near the place where they were fishing last week. They had a problem in the mill and it started to pollute the river. That's why they couldn't catch any fish. They were all dead. Carol had eaten a poisoned fish.

WRITING (str. 185)

1 (predlog rešitve)

Brad Pitt is best known for his good looks, remarkable acting roles, and relationship with Angelina Jolie. He was born on 18 December, 1964, in Shawnee, Oklahoma.

When he was five his family moved to Missouri and Brad spent his childhood there. He is the oldest of three children and has a younger brother and sister.

In 1982, he graduated from high school and enrolled at the University of Missouri where he studied journalism and advertising. He dropped out of college and went to Hollywood in 1986 because he decided to become an actor. At the beginning of his career he worked as an extra and took various jobs to get by. He shot his first film in 1989. His big hit was in 1991, and he became famous overnight. Since then his career has begun to take off. In the 1990s he played many key roles in different movies. In 1994 he was crowned 'The Sexiest Man Alive'. A year later he received a Golden Globe and an Oscar nomination for his role in Terry Gilliam's 12 Monkeys. In 1990 he dated actress Juliette Lewis. They broke up three years later. Then he got engaged to Gwyneth Paltrow but they broke up in 1998. When he met Jennifer Aniston in 2000, they got married. Five years later, they split up. [...]

The girls were standing by the side of the road. It was a busy road. Cars and lorries passed but not one of them stopped. They were near Lancaster now. They couldn't take a bus there because they needed money to pay board and lodging at Grasmere. After some time a car pulled up. The two girls got to Grasmere in the evening and spent the night at a Youth Hostel there. The next morning they set off on a walk round Lake Grasmere. They went to Dove Cottage first. It was by the shore of the lake. It's the house where Wordsworth lived with his sister Dorothy. The view of the lake and the hills was beautiful. It's easy to understand that Nature here was a constant source of inspiration to the Lake Poets. If you lived there, you'd also write poetry.
